inanimate objects

a picture of a family (a couple & a dog) wearing the same red striped shirt, including the dog in the trolley, who's also wearing some trippy sunglasses goggles.

a picture of a lady in a fashionable all black leather outfit with sunglasses on, standing, holding her chihuahua in the park, her facial expression dramatic and almost annoyed, her mouth opened like an O, as if shouting to the dog because it was trying to run away from her.

a picture, seemingly a selfie, of a young maltese in front a young asian guy, both looking directly into the camera.

textual description

i remember seeing this family when i went to an amusement park in taiwan back in december. i was amazed by not only the fact that they were all wearing the same outfit but that the dog was taken care of so meticulously that even his facial expression looked like a spoiled human baby.

i took this picture when i was doing an on-going project documenting dogs and their owners. when the woman agreed to be photographed she picked her dog up from the ground. the dog surprisingly didn't seem to want to do what the lady said as it bounced around like a boiling shrimp.

last summer i visited my friend in california. one of the many things i miss the most was spending time with their dog and pretending it was mine.
